National Pregnancy in Diabetes (NPID) Audit

Data Collection Form – Additional Baby Sheet

For help completing this form, please refer to the guidance notes.

Where there is more than one baby in a single pregnancy, please use this form to record the details of the additional baby/babies (one copy of the form per additional baby). The mother’s NHS number and estimated delivery date on this form will help you to enter the details of the additional baby/babies on the correct pregnancy record on the secure NPID web data entry system.

If you have any questions, please contact the audit team at npid@nhs.net

Please do not use this form for any purpose other than the NPID audit.
