

Type: Change Request
Reference: 1719
Version No: 1.0
Subject: Improving Access to Psychological Therapies Data Set Version 2
Effective Date: 1 April 2020
Reason for Change: Change to Information Standards
Publication Date: 25 October 2019

Background:

The Improving Access to Psychological Therapies (IAPT) Data Set Version 1 was approved by the Information Standards Board for Health and Social Care (ISB) as [ISB 1520 Improving Access to Psychological Therapies Data Set](#).

A number of changes have been identified since the last version, and the Improving Access to Psychological Therapies Data Set Version 2 includes:

- A new structure and content, including clinical terminology, to meet current clinical practice and incorporate new requirements. It brings the Improving Access to Psychological Therapies Data Set into line with the core structure of the Mental Health Services Data Set (MHSDS).
- Amendments to National Code values and descriptions
- New tables
- New Data Items
- Retirement of Data Items
- The Improving Access to Psychological Therapies Data Set will be submitted centrally via the Strategic Data Collection Service in the Cloud (SDCS Cloud) maintained by NHS Digital. This replaces the Bureau Service Portal (BSP) that was previously used.
- Changes to Organisation and Organisation Site Code Data Items to reflect changes to organisation reference data maintained and published by the Organisation Data Service, as defined by [SCCI0090: Health and Social Care Organisation Reference Data](#).

To support the Information Standard, this Change Request updates the NHS Data Model and Dictionary to introduce the Improving Access to Psychological Therapies Data Set Version 2.

To view a demonstration on "How to Read an NHS Data Model and Dictionary Change Request", visit the NHS Data Model and Dictionary help pages at: http://www.datadictionary.nhs.uk/Flash_Files/changerequest.htm.

Note: if the web page does not open, please copy the link and paste into the web browser.

IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES DATA SET

Change to Data Set: Changed Description

The [Improving Access to Psychological Therapies Data Set](#) will be included in a future version of the [Mental Health Services Data Set](#).

[Improving Access to Psychological Therapies Data Set Overview](#)

The **Mandatory or Required (M/R)** column indicates the recommendation for the inclusion of data. For a "Full Screen" view, click [Improving Access to Psychological Therapies Data Set](#).

In the "Full Screen" view, to return to the "Data Set" view, click the browser "back" button.

The **Mandatory or Required (M/R/O)** column indicates the recommendation for the inclusion of data.

- **M = Mandatory:** this data element is mandatory and the technical process (e.g. submission of the data set, production of output etc) cannot be completed without this data element being present
- **R = Required:** NHS business processes cannot be delivered without this data element
- **R = Required:** NHS business processes cannot be delivered without this data element
- **O = Optional:** the inclusion of this data element is optional as required for local purposes.

For guidance on the Data Set constraints, see the [Improving Access to Psychological Therapies Data Set Constraints](#).

PERSONAL AND DEMOGRAPHIC DETAILS	
HEADER	
Patient: To carry Patient and Demographic details. One occurrence of this group is required:

ADULT IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES PROGRAMME, renamed from IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES PROGRAMME

Change to Supporting Information: Changed Description, Name

The [Improving Access to Psychological Therapies \(IAPT\) Programme](#) is an [Organisation](#). The Adult Improving Access to Psychological Therapies Programme is part of an [Organisation](#).

The [Improving Access to Psychological Therapies Programme](#) supports the frontline NHS in implementing [National Institute for Health and Care Excellence \(NICE\)](#) guidelines for people suffering from depression and anxiety disorders. The Adult Improving Access to Psychological Therapies Programme supports the frontline NHS in implementing [National Institute for Health and Care Excellence \(NICE\)](#) guidelines for people suffering from depression and anxiety disorders.

For further information on the [Improving Access to Psychological Therapies Programme](#), see the [Improving Access to Psychological Therapies Programme](#) website at: [Adult Improving Access to Psychological Therapies programme](#). For further information on the Adult Improving Access to Psychological Therapies Programme, see the NHS England website at: [Adult Improving Access to Psychological Therapies programme](#).

ADULT IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES PROGRAMME, renamed from IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES PROGRAMME

Change to Supporting Information: Changed Description, Name

- Changed Description
- Changed Name from Data Dictionary.NHS Business Definitions.I.Improving Access to Psychological Therapies Programme to Data Dictionary.NHS Business Definitions.A.Adult Improving Access to Psychological Therapies Programme

AGORAPHOBIA MOBILITY INVENTORY QUESTIONNAIRE (RETIRED), renamed from AGORAPHOBIA MOBILITY INVENTORY QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

The [Agoraphobia Mobility Inventory Questionnaire](#) is a type of [ASSESSMENT TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

The [Agoraphobia Mobility Inventory Questionnaire](#) is a 27 item self completion questionnaire. It is recommended where the [PROVISIONAL DIAGNOSIS](#) is Agoraphobia. The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

[PATIENTS](#) select numbers to indicate the degree to which they would avoid particular places or situations because of discomfort or anxiety. The score provides a measure of the severity of agoraphobia. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

The scoring is in the range of 1-5 item scale:

- | | |
|---|---------------------------|
| 1 | Never Avoid |
| 2 | Rarely Avoid |
| 3 | Avoid About Half the Time |
| 4 | Avoid Most of the Time |
| 5 | Always Avoid |

Each situation is rated twice to reflect the degree that the situation is avoided:

1. [Agoraphobia Mobility Inventory Questionnaire 'When Accompanied'](#)
2. [Agoraphobia Mobility Inventory Questionnaire 'When Alone'](#)

[PATIENTS](#) may skip items that are irrelevant to their lifestyles; however, it is recommended that the scale be considered invalid for individuals who skip more than five items.

The [AGORAPHOBIA MOBILITY INVENTORY SCORE \(WHEN ACCOMPANIED\)](#) is scored by calculating the average avoidance rating across all situations for the 'When alone' and 'When accompanied' scales. For the measure related to 'When alone', a cut off score above an item average of 2.3 should be applied.

AGORAPHOBIA MOBILITY INVENTORY QUESTIONNAIRE (RETIRED), renamed from AGORAPHOBIA MOBILITY INVENTORY QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Agoraphobia Mobility Inventory Questionnaire
- Changed Name from Data_Dictionary.NHS_Business_Definitions.A.Agoraphobia_Mobility_Inventory_Questionnaire to Retired.Data_Dictionary.NHS_Business_Definitions.A.Agoraphobia_Mobility_Inventory_Questionnaire

AGORAPHOBIA MOBILITY INVENTORY QUESTIONNAIRE ACCOMPANIED (RETIRED)_ renamed from AGORAPHOBIA MOBILITY INVENTORY QUESTIONNAIRE ACCOMPANIED

Change to Supporting Information: Changed Description, status to Retired, Name

The [Agoraphobia Mobility Inventory Questionnaire "When Accompanied"](#) is part of the [Agoraphobia Mobility Inventory Questionnaire](#) which is a type of [ASSESSMENT TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

The [Agoraphobia Mobility Inventory Questionnaire "When Accompanied"](#) is a 27 item self completion questionnaire. The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

The score is derived by selecting a number to indicate the degree to which the [PATIENT](#) would avoid places or situations because of discomfort or anxiety when accompanied by a trusted companion. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Agoraphobia Mobility Inventory Questionnaire Accompanied
- Changed Name from Data_Dictionary.NHS_Business_Definitions.A.Agoraphobia_Mobility_Inventory_Questionnaire_Accompanied to Retired.Data_Dictionary.NHS_Business_Definitions.A.Agoraphobia_Mobility_Inventory_Questionnaire_Accompanied

AGORAPHOBIA MOBILITY INVENTORY QUESTIONNAIRE ALONE (RETIRED)_ renamed from AGORAPHOBIA MOBILITY INVENTORY QUESTIONNAIRE ALONE

Change to Supporting Information: Changed Description, status to Retired, Name

The [Agoraphobia Mobility Inventory Questionnaire "When Alone"](#) is part of the [Agoraphobia Mobility Inventory Questionnaire](#) which is a type of [ASSESSMENT TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

The [Agoraphobia Mobility Inventory Questionnaire "When Alone"](#) is a 27 item self completion questionnaire. The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

The score is derived by selecting a number to indicate the degree to which the [PATIENT](#) would avoid places or situations because of discomfort or anxiety when alone. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

AGORAPHOBIA MOBILITY INVENTORY QUESTIONNAIRE ALONE (RETIRED)_ renamed from AGORAPHOBIA MOBILITY INVENTORY QUESTIONNAIRE ALONE

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Agoraphobia Mobility Inventory Questionnaire Alone
- Changed Name from Data_Dictionary.NHS_Business_Definitions.A.Agoraphobia_Mobility_Inventory_Questionnaire_Alone to Retired.Data_Dictionary.NHS_Business_Definitions.A.Agoraphobia_Mobility_Inventory_Questionnaire_Alone

AGORAPHOBIA QUESTIONNAIRE (RETIRED)_ renamed from AGORAPHOBIA QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

The [Agoraphobia Questionnaire](#) is a type of [ASSESSMENT TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

This is the Improving Access to Psychological Therapies [Agoraphobia Questionnaire](#). It is calculated by the [PATIENT](#) choosing a number to indicate how much they would avoid a situation because of a fear of having a panic attack or other distressing symptoms (such as loss of bladder control, vomiting or dizziness). The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

The numbers are in a range of 0 to 8 and are chosen as: Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

- 0 Would not avoid it
- 2 Slightly avoid it
- 4 Definitely avoid it
- 6 Markedly avoid it
- 8 Always avoid it

A score of less than 4 indicates no specific problems and a score of greater than 4 suggests further exploration by the therapist to determine the extent to which this fear interferes with the PATIENT's daily activities.

AGORAPHOBIA QUESTIONNAIRE (RETIRED), renamed from AGORAPHOBIA QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

COLLEGE

Change to Supporting Information: Changed Description

A [College](#) is an [Educational Establishment](#).

A [College](#) provides further education after statutory school age for qualifications such as 'A' levels or National Vocational Qualifications. This includes sixth form [Colleges](#).

~~This definition describes the function of the establishment rather than the name of the establishment as the term 'College' can be used in the name for a number of different types of [Educational Establishments](#) including [Schools](#) or [Universities](#).~~ This definition describes the function of the establishment rather than the name of the establishment as the term 'College' can be used in the name for a number of different types of [Educational Establishments](#) including [Schools](#) or [Universities](#).

EDUCATIONAL ESTABLISHMENT

Change to Supporting Information: Changed Description

An [Educational Establishment](#) is an [Organisation](#).

An [Educational Establishment](#)'s main purpose is education. ~~These may be [Schools](#), [Colleges](#) or [Higher Education Establishments](#).~~ These may be [Schools](#), [Colleges](#) or [Universities](#).

[Educational Establishments](#) providing education for Degrees are considered to be Higher Education Establishments or Universities.

An up-to-date list of [Educational Establishments](#) in England can be found on the [Department for Education](#) part of the gov.uk website at: [Get information about schools](#).

EMPLOYMENT SUPPORT

Change to Supporting Information: Changed Description

[Employment Support](#) may be offered as part of an [Improving Access to Psychological Therapies Contact](#).

[Employment Support](#) denotes the service available within Improving Access to Psychological Therapies which exists to provide employment advice and/or relevant signposting for [PATIENTS](#) who are unemployed and seeking work, at work and experiencing difficulty or on statutory or employer sick pay. [Employment Support](#) denotes the service available within an Improving Access to Psychological Therapies Service which exists to provide employment advice and/or relevant signposting for [PATIENTS](#) who are unemployed and seeking work, at work and experiencing difficulty or on statutory or employer sick pay.

GENERALISED ANXIETY DISORDER PENN STATE WORRY QUESTIONNAIRE (RETIRED)_ renamed from GENERALISED ANXIETY DISORDER PENN STATE WORRY QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

The [Generalised Anxiety Disorder Penn State Worry Questionnaire](#) is a type of [ASSESSMENT TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

The [Generalised Anxiety Disorder Penn State Worry Questionnaire](#) is a 16 item self-completion questionnaire which may be used as a screening device, for individuals with worry related problems. The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

The [PATIENT](#) chooses a number that best describes how typical or characteristic a particular statement is in the range of 1-5. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

- | | |
|---|--------------------|
| 1 | Not at all Typical |
| 2 | Not Very Typical |
| 3 | Somewhat Typical |
| 4 | Fairly Typical |
| 5 | Very Typical |

The recommended cut off score for the [Generalised Anxiety Disorder Penn State Worry Questionnaire](#) is 45 and will identify [PATIENTS](#) with 99% sensitivity and 98% specificity.

GENERALISED ANXIETY DISORDER PENN STATE WORRY QUESTIONNAIRE (RETIRED)_ renamed from GENERALISED ANXIETY DISORDER PENN STATE WORRY QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Generalised Anxiety Disorder Penn State Worry Questionnaire
- Changed Name from Data_Dictionary.NHS_Business_Definitions.G.Generalised_Anxiety_Disorder_Penn_State_Worry_Questionnaire to Retired.Data_Dictionary.NHS_Business_Definitions.G.Generalised_Anxiety_Disorder_Penn_State_Worry_Questionnaire

GENERALISED ANXIETY DISORDER QUESTIONNAIRE (RETIRED)_ renamed from GENERALISED ANXIETY DISORDER QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

The [Generalised Anxiety Disorder Questionnaire](#) is a type of [ASSESSMENT TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

Although designed primarily as a screening and severity measure for Generalised Anxiety Disorder, the [Generalised Anxiety Disorder Questionnaire](#) can also be used to screen and monitor for three other common anxiety disorders. The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

- panic disorder
- social anxiety disorder and
- post-traumatic stress disorder.

The index scores are as follows:

- | | |
|------|--------------|
| 0-4 | No Anxiety |
| 5-10 | Mild Anxiety |

- 11–15 Moderate Anxiety
- 15–24 Severe Anxiety

If one or two values are missing from the score, then they can be substituted with the average score of the non-missing items. Questionnaires with more than two missing values should be disregarded. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

The recommended cut-off score for the (seven-item) [Generalised Anxiety Disorder Questionnaire](#) is 7, so a [PERSON](#) scoring 8 or above will be considered to be suffering from clinically significant anxiety symptoms.

- Changed Name from Data_Dictionary.NHS_Business_Definitions.G.Generalised_Anxiety_Disorder_Questionnaire to Retired.Data_Dictionary.NHS_Business_Definitions.G.Generalised_Anxiety_Disorder_Questionnaire

HEALTH ANXIETY INVENTORY SHORT WEEK SCALE (RETIRED), renamed from **HEALTH ANXIETY INVENTORY SHORT WEEK SCALE**

Change to Supporting Information: Changed Description, status to Retired, Name

The [Health Anxiety Inventory Short Week Scale](#) is a type of [ASSESSMENT TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

The [Health Anxiety Inventory Short Week Scale](#) is made up of two parts. It measures anxiety and assesses to what extent [PATIENTS](#). The last live version of this item is available in the [?????](#) release of the NHS Data Model and Dictionary.

- experienced particular feelings during the past week
- think they may feel if they had a serious illness.

The result of the [Health Anxiety Inventory Short Week Scale](#) identifies both hypochondriacal [PATIENTS](#) and people who are very health anxious. A cut off of 18 identifies those fulfilling DSM-IV diagnostic criteria for hypochondriasis. A cut-off score of 15 indicates a mixture of both hypochondriacal [PATIENTS](#) and people who are very health anxious but just miss the criteria for the clinical diagnosis. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES DATA SET OVERVIEW

Change to Supporting Information: Changed Description

The [Improving Access to Psychological Therapies Data Set](#) will be included in a future version of the [Mental Health Services Data Set](#).

The collection of outcome data including clinical scores is a defining characteristic for stepped care and the [National Institute for Health and Care Excellence \(NICE\)](#) recommended model of delivery of psychological therapies. **Background:**

The [Improving Access to Psychological Therapies Data Set](#) provides an agreed national standard for data collection for commissioned providers of psychological therapy for anxiety and depression. Standardised [PATIENT](#) centred information facilitates an integrated approach to the provision of psychological therapies and leads to improvements in the quality of services. The Adult Improving Access to Psychological Therapies Programme is an NHS programme in England, which started in 2008, that has transformed treatment of anxiety disorders and depression through the delivery of interventions approved by the [National Institute for Health and Care Excellence \(NICE\)](#).

The [Improving Access to Psychological Therapies Data Set](#) supports: **Improving Access to Psychological Therapies Data Set**

- Clinicians to evaluate the effectiveness, refine and adapt the interventions provided using [PATIENT](#) outcome measures
- Development and refinement of policy relating to psychological therapies
- Monitoring the implementation and effectiveness of the [Improving Access to Psychological Therapies \(IAPT\) Programme](#)
- The equity of provision in relation to geographical, gender, age, ethnicity, religion, sexual orientation and [DISABILITY](#) coverage of the new services
- The profile of therapy types provided, diagnosis pattern and durations of interventions and the frequency of multi-step interventions; and the relationship of these to presenting problems, medication usage, outcomes (clinical, symptomatic, work and social)
- Performance management at [Clinical Commissioning Group](#) and national level
- Better planning and management of services at local level
- Waiting Time monitoring through the central calculation of waiting times
- Monitoring of [PATIENT](#) experience to inform service delivery
- Capture of activity and movement across the stepped care pathway
- The development of a payment system for [Improving Access to Psychological Therapies Services](#).

The [Improving Access to Psychological Therapies Data Set](#) includes information on: The Improving Access to Psychological Therapies Data Set has been developed to support the Adult Improving Access to Psychological Therapies Programme through a regular national return of data. This includes for example: supporting commissioning, service improvement and service design.

- [PATIENT](#) Demographics: Geographical, gender, age, ethnicity, religion, sexual orientation and [DISABILITY](#)
- Care Pathways: [PROVISIONAL DIAGNOSIS](#) information, psychological intervention types, referral and sessional details
- [APPOINTMENTS](#): Clinical, economic and social outcomes relating to the interventions provided
- Waiting Time Pauses: [ACTIVITY SUSPENSION](#) periods across the [PATIENT](#)'s care pathway
- [Improving Access to Psychological Therapies Patient Experience Questionnaires](#): Improving Access to Psychological Therapies treatment and assessment questionnaires
- [National Tariff Payment System](#): Additional data items to support the introduction and development of a payment system for [Improving Access to Psychological Therapies Services](#).

Time period The Improving Access to Psychological Therapies Data Set is a [PATIENT](#) level, output based, secondary uses data set which aims to deliver robust, comprehensive, nationally consistent and comparable information for [PATIENTS](#) accessing NHS-funded Improving Access to Psychological Therapies Services located in England.

The extract covers one month. As a secondary uses data set, the Improving Access to Psychological Therapies Data Set re-uses clinical and operational data for purposes other than direct [PATIENT](#) care. It defines the data items, definitions and associated value sets to be extracted or derived from local information systems. These national definitions allow [Health Care Providers](#) to extract data from their local systems in a consistent manner, which supports national and local reporting to be undertaken.

Frequency The Improving Access to Psychological Therapies Data Set includes information on:

- [PATIENT](#) Demographics: including geographical, gender, age, ethnicity, religion, sexual orientation and [DISABILITY](#)
- Care Pathways: referral details, Mental Health Care Cluster details and Presenting Complaints information

- **CARE CONTACTS** and **CARE ACTIVITIES: SESSION** details and any clinical, economic and social outcomes recorded relating to the interventions and coded scored assessments provided
- **Waiting Time Pauses: ACTIVITY SUSPENSION** periods across the **PATIENT**'s care pathway
- **Improving Access to Psychological Therapies Patient Experience Questionnaires:** Improving Access to Psychological Therapies treatment and assessment questionnaires
- **National Tariff Payment System:** Additional data items to support the introduction and development of a payment system for **Improving Access to Psychological Therapies Services**
- **Care Personnel:** Qualifications of the **Care Personnel** delivering treatment.

Reports are run monthly. **Submission Information:**

Further Guidance The **Improving Access to Psychological Therapies Data Set** is submitted centrally on a monthly basis via the **Strategic Data Collection Service in the Cloud (SDCS Cloud)** maintained by **NHS Digital**.

Further guidance relating to the **Improving Access to Psychological Therapies Data Set** is available on the: **Further guidance relating to the Improving Access to Psychological Therapies Data Set** is available on the **NHS Digital** website: at **Improving Access to Psychological Therapies Data Set**.

- **NHS Digital** website at: **Improving Access to Psychological Therapies Data Set**
- **Improving Access to Psychological Therapies (IAPT) Programme** website at: **Adult Improving Access to Psychological Therapies programme**.

IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES PATIENT EXPERIENCE QUESTIONNAIRE

Change to Supporting Information: Changed Description

The **Improving Access to Psychological Therapies Patient Experience Questionnaire** is an **ASSESSMENT TOOL**.

The **Improving Access to Psychological Therapies Patient Experience Questionnaire** is a self-completion questionnaire relating to a **PATIENT**'s experience of an **Improving Access to Psychological Therapies Service**. The **Improving Access to Psychological Therapies Patient Experience Questionnaire** is a self-completed questionnaire relating to a **PATIENT**'s experience of an **Improving Access to Psychological Therapies Service**.

The **Improving Access to Psychological Therapies Patient Experience Questionnaire** is made up of two parts:

- Assessment with separate questions for:
 - Choice
 - Satisfaction
- Treatment.

For further information on the **Improving Access to Psychological Therapies Patient Experience Questionnaires**, see the **Improving Access to Psychological Therapies Programme** website at: **Adult Improving Access to Psychological Therapies programme**. For further information on the **Improving Access to Psychological Therapies Patient Experience Questionnaires**, see the **NHS England** website at: **Adult Improving Access to Psychological Therapies programme**.

IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES REFERRAL TO TREATMENT MEASUREMENT (RETIRED) renamed from IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES REFERRAL TO TREATMENT MEASUREMENT

Change to Supporting Information: Changed Description, status to Retired, Name

An **Improving Access to Psychological Therapies Referral To Treatment Measurement** is a **REFERRAL TO TREATMENT PERIOD**. This item has been retired from the **NHS Data Model and Dictionary**.

A key priority of the **Improving Access to Psychological Therapies Programme** is to reduce the time people wait for treatment. The last live version of this item is available in the ?????? release of the **NHS Data Model and Dictionary**.

Improving Access to Psychological Therapies Services measure and monitor waiting times with the aim of ensuring that no **PATIENT** waits longer than the locally stipulated maximum. Access to this version can be obtained by emailing **information.standards@nhs.net** with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

Note: **Improving Access to Psychological Therapies Services** may use the **Improving Access to Psychological Therapies Opt-In Model**.

The **Improving Access to Psychological Therapies Referral To Treatment Measurement**:

- **Starts when:**
 - Any **CARE PROFESSIONAL** or **SERVICE** permitted by an English NHS commissioner to make such referrals, refers to an **Improving Access to Psychological Therapies Service** with the intention that the **PATIENT** be assessed and, if appropriate, treated.
- **Ends when:**
 - A full course of treatment starts, i.e. future treatment has been agreed with the **PATIENT** and a second **APPOINTMENT** has been arranged within 28 days of the first treatment session.
 - A **PATIENT** is assessed and treated during the same **APPOINTMENT** and a full course of treatment starts
 - A **PATIENT** declines treatment having been offered it
 - A clinical decision is made not to treat.

Note:

- The waiting time will end and be nullified when a **PATIENT** does not attend (DNA) their first **APPOINTMENT**
- There will be a pause when a **PATIENT** declines at least two reasonable **APPOINTMENTS**.

Further guidance relating to [Improving Access to Psychological Therapies Referral To Treatment Measurement](#) can be found at the [Improving Access to Psychological Therapies Programme](#) website at: [Adult Improving Access to Psychological Therapies programme](#).

IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES REFERRAL TO TREATMENT MEASUREMENT (RETIRED) renamed from **IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES REFERRAL TO TREATMENT MEASUREMENT**

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Improving Access to Psychological Therapies Referral To Treatment Measurement
- Changed Name from Data_Dictionary.NHS_Business_Definitions.I.Improving_Access_to_Psychological_Therapies_Referral_To_Treatment_Measurement to Retired.Data_Dictionary.NHS_Business_Definitions.I.Improving_Access_to_Psychological_Therapies_Referral_To_Treatment_Measur

IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES SERVICE

Change to Supporting Information: Changed Description

An [Improving Access to Psychological Therapies Service](#) is a **SERVICE**.

[Improving Access to Psychological Therapies Services](#) deliver a range of evidence-based interventions in accordance with the [National Institute for Health and Care Excellence \(NICE\)](#) guidelines for people suffering from depression or anxiety disorders. [Improving Access to Psychological Therapies Services](#) deliver a range of evidence-based interventions in accordance with the [National Institute for Health and Care Excellence \(NICE\)](#) guidelines for people suffering from depression or anxiety disorders.

For further information on [Improving Access to Psychological Therapies Services](#), see the [Improving Access to Psychological Therapies Programme](#) website at: [Adult Improving Access to Psychological Therapies programme](#). For further information on [Improving Access to Psychological Therapies Services](#), see the [NHS England](#) website at: [Adult Improving Access to Psychological Therapies programme](#).

INTEGRATED IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES LONG TERM CONDITION SERVICE

Change to Supporting Information: New Supporting Information

An [Integrated Improving Access to Psychological Therapies Long Term Condition Service \(Integrated IAPT-LTC Service\)](#) is a **SERVICE**.

An [Integrated Improving Access to Psychological Therapies Long Term Condition Service](#) is an [Improving Access to Psychological Therapies Service](#) that provides evidence-based ([National Institute for Health and Care Excellence](#) recommended) psychological therapies for **PATIENTS** with [Long Term Physical Health Conditions](#) who also have depression and anxiety disorders, or who have medically unexplained symptoms.

[Integrated Improving Access to Psychological Therapies Long Term Condition Services](#) will be co-located with existing primary and secondary [Health Care Providers](#).

For further information on [Integrated Improving Access to Psychological Therapies Long Term Condition Services](#), see the [NHS England](#) website at: [Long Term Conditions and Medically Unexplained Symptoms](#).

This supporting information is also known by these names:

Context	Alias
shortname	Integrated IAPT-LTC Service
plural	Integrated Improving Access to Psychological Therapies Long Term Condition Services

INTERNET ENABLED THERAPY

Change to Supporting Information: New Supporting Information

[Internet Enabled Therapy](#) is a **CLINICAL INTERVENTION**.

[Internet Enabled Therapy](#) is the delivery of therapy through an internet-based programme, which is accessed by the **PATIENT** in their own time.

For the [Improving Access to Psychological Therapies Data Set](#):

- The **PATIENT** will be supported through the therapy by an [Improving Access to Psychological Therapies Care Professional](#)
- Further information on [Improving Access to Psychological Therapies Internet Enabled Therapy](#) can be found on the [NHS England](#) website at: [Digital therapy selection](#).

This supporting information is also known by these names:

Context	Alias
plural	Internet Enabled Therapies

INTERNET ENABLED THERAPY ACTIVITY LOG

Change to Supporting Information: New Supporting Information

An Internet Enabled Therapy Activity Log is a log completed by the CARE PROFESSIONAL to show how much support they gave to the PATIENT during a specified time period during Internet Enabled Therapy.

For the Improving Access to Psychological Therapies Data Set, the Internet Enabled Therapy Activity Log is completed by the Improving Access to Psychological Therapies Care Professional.

This supporting information is also known by these names:

Context	Alias
plural	Internet Enabled Therapy Activity Logs

INTERNET ENABLED THERAPY INTEGRATED SOFTWARE ENGINE

Change to Supporting Information: New Supporting Information

An Internet Enabled Therapy Integrated Software Engine is a MEDICAL DEVICE.

An Internet Enabled Therapy Integrated Software Engine is software that enables information, such as progress notes and outcomes, to be shared electronically between an Internet Enabled Therapy Programme and a PATIENT's clinical record.

The use of an Internet Enabled Therapy Integrated Software Engine reduces the burden and associated risk of duplicate data input and can provide real time feedback regarding the efficiency of Internet Enabled Therapy for the PATIENT.

This supporting information is also known by these names:

Context	Alias
plural	Internet Enabled Therapy Integrated Software Engines

INTERNET ENABLED THERAPY PROGRAMME

Change to Supporting Information: New Supporting Information

An Internet Enabled Therapy Programme is a CLINICAL INTERVENTION.

An Internet Enabled Therapy Programme is a programme that enables a PATIENT to complete Internet Enabled Therapy.

This supporting information is also known by these names:

Context	Alias
plural	Internet Enabled Therapy Programmes

OBSESSIVE COMPULSIVE DISORDER INVENTORY QUESTIONNAIRE (RETIRED)_ renamed from OBSESSIVE COMPULSIVE DISORDER INVENTORY QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

The Obsessive Compulsive Disorder Inventory Questionnaire is a type of ASSESSMENT TOOL. This item has been retired from the NHS Data Model and Dictionary.

The Obsessive Compulsive Disorder Inventory Questionnaire is a 42 item self-completion questionnaire which indicates how PATIENTS refer to experiences they have in their everyday lives in the range of 0-4. The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

- 0 Not At All
- 1 A Little
- 2 Moderately
- 3 A Lot
- 4 Extremely

A cut-off score of 40 allows correct identification of **PATIENTS** with an Obsessive Compulsive Disorder (OCD). Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

OBSESSIVE COMPULSIVE DISORDER INVENTORY QUESTIONNAIRE (RETIRED), renamed from **OBSESSIVE COMPULSIVE DISORDER INVENTORY QUESTIONNAIRE**

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Obsessive Compulsive Disorder Inventory Questionnaire
- Changed Name from `Data_Dictionary.NHS_Business_Definitions.O.Obsessive_Compulsive_Disorder_Inventory_Questionnaire` to `Retired.Data_Dictionary.NHS_Business_Definitions.O.Obsessive_Compulsive_Disorder_Inventory_Questionnaire`

ONLINE INSTANT MESSAGING

Change to Supporting Information: New Supporting Information

Online Instant Messaging is a **COMMUNICATION CONTACT METHOD**.

Online Instant Messaging is an online tool that allows real time chat through transmission of written messages over the internet, usually between two parties.

PANIC DISORDER SEVERITY SCALE (RETIRED), renamed from **PANIC DISORDER SEVERITY SCALE**

Change to Supporting Information: Changed Description, status to Retired, Name

The **Panic Disorder Severity Scale** is a type of **ASSESSMENT TOOL**. This item has been retired from the NHS Data Model and Dictionary.

The **Panic Disorder Severity Scale** is designed to be a simple way of measuring the severity of Panic Disorder. The last live version of this item is available in the **?????** release of the NHS Data Model and Dictionary.

For **PATIENTS** with a panic disorder, the **Panic Disorder Severity Scale** can be calculated and repeated over time to monitor change. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

Where **PATIENTS** are not agoraphobic, score ranges correspond with:

0-4	Normal
2-5	Borderline
6-9	Slightly ill
10-13	Moderately ill
14+	Markedly ill

For agoraphobic **PATIENTS**, score ranges correspond with:

0-2	Normal
3-7	Borderline
8-10	Slightly ill
11-15	Moderately ill
16+	Markedly ill

The recommended cut off score for the **Panic Disorder Severity Scale** is 8, so a **PERSON** scoring 8 or above will be considered to be at "caseness".

PANIC DISORDER SEVERITY SCALE (RETIRED), renamed from **PANIC DISORDER SEVERITY SCALE**

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Panic Disorder Severity Scale
- Changed Name from `Data_Dictionary.NHS_Business_Definitions.P.Panic_Disorder_Severity_Scale` to `Retired.Data_Dictionary.NHS_Business_Definitions.P.Panic_Disorder_Severity_Scale`

PATIENT HEALTH QUESTIONNAIRE-9 (RETIRED), renamed from **PATIENT HEALTH QUESTIONNAIRE-9**

Change to Supporting Information: Changed Description, status to Retired, Name

The [Patient Health Questionnaire-9 \(PHQ-9\)](#) is a type of [ASSESSMENT TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

The [Patient Health Questionnaire-9](#) is designed to facilitate the recognition and diagnosis of depression in [PATIENTS](#). The last live version of this item is available in the [??????](#) release of the NHS Data Model and Dictionary.

For [PATIENTS](#) with a depressive disorder, a [Patient Health Questionnaire-9](#) can be calculated and repeated over time to monitor change. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

The responses for each of the 9 items are as follows:

- 0—Not at all
- 1—Several days
- 2—More than half the days
- 3—Nearly every day

The score ranges are:

0—4	None
5—9	Mild
10—14	Moderate
15—19	Moderately Severe
20—27	Severe

If one or two values are missing from the score, then they can be substituted with the average score of the non-missing items. Questionnaires with more than two missing values should be disregarded.

The recommended cut off score for the [Patient Health Questionnaire-9](#) is 9, so a [PERSON](#) scoring 10 or above will be considered to be suffering from clinically significant symptoms of depression.

Further details about the [Patient Health Questionnaire-9 \(PHQ-9\)](#) are available from the [PHQ screeners website](#).

PATIENT HEALTH QUESTIONNAIRE-9 (RETIRED)_ renamed from PATIENT HEALTH QUESTIONNAIRE-9

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Patient Health Questionnaire-9
- Changed Name from `Data_Dictionary.NHS_Business_Definitions.P.Patient_Health_Questionnaire-9` to `Retired.Data_Dictionary.NHS_Business_Definitions.P.Patient_Health_Questionnaire-9`

PHOBIA QUESTIONNAIRE (RETIRED)_ renamed from PHOBIA QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

The [Phobia Questionnaires](#) are types of [ASSESSMENT TOOLS](#). This item has been retired from the NHS Data Model and Dictionary.

[Phobia Questionnaires](#) are included in Improving Access to Psychological Therapies because it is clear that some [PATIENTS](#) (such people with agoraphobia and social phobia) score below the clinical cut-offs for the [Patient Health Questionnaire-9](#) and [Generalised Anxiety Disorder Questionnaire](#) even though their life is significantly impaired by their anxiety disorder. The last live version of this item is available in the [??????](#) release of the NHS Data Model and Dictionary.

This is because marked avoidance (such as being housebound) means that they may not experience strong anxious affect on a daily basis. Therefore the [Patient Health Questionnaire-9](#) and [Generalised Anxiety Disorder Questionnaire](#) would not be an effective way of measuring clinical improvement in such individuals. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

There are three types of [Phobia Questionnaire](#):

- 1 [Agoraphobia Questionnaire](#)
- 2 [Social Phobia Questionnaire](#)
- 3 [Specific Phobia Questionnaire](#)

PHOBIA QUESTIONNAIRE (RETIRED)_ renamed from PHOBIA QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Phobia Questionnaire
- Changed Name from `Data_Dictionary.NHS_Business_Definitions.P.Phobia_Questionnaire` to `Retired.Data_Dictionary.NHS_Business_Definitions.P.Phobia_Questionnaire`

POST TRAUMATIC STRESS DISORDER IMPACTS OF EVENTS REVISED SCALE (RETIRED)_ renamed from POST TRAUMATIC STRESS DISORDER IMPACTS OF EVENTS REVISED SCALE

Change to Supporting Information: Changed Description, status to Retired, Name

The [Post Traumatic Stress Disorder Impacts of Events Revised Scale](#) is a type of [ASSESSMENT_TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

This is used for people with a Post Traumatic Stress Disorder. The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

The [Post Traumatic Stress Disorder Impacts of Events Revised Scale post](#) is a 22 item self-completion questionnaire which indicates [PATIENTS](#) have experienced feelings during the past seven days in the range of: Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

- 0 Not at all
- 1 A little bit
- 2 Moderately
- 3 Quite a bit
- 4 Extremely

POST TRAUMATIC STRESS DISORDER IMPACTS OF EVENTS REVISED SCALE (RETIRED)_ renamed from POST TRAUMATIC STRESS DISORDER IMPACTS OF EVENTS REVISED SCALE

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Post Traumatic Stress Disorder Impacts of Events Revised Scale
- Changed Name from Data_Dictionary.NHS_Business_Definitions.P.Post_Traumatic_Stress_Disorder_Impacts_of_Events_Revised_Scale to Retired.Data_Dictionary.NHS_Business_Definitions.P.Post_Traumatic_Stress_Disorder_Impacts_of_Events_Revised_Scale

SOCIAL PHOBIA INVENTORY QUESTIONNAIRE (RETIRED)_ renamed from SOCIAL PHOBIA INVENTORY QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

The [Social Phobia Inventory Questionnaire](#) is a type of [ASSESSMENT_TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

The [Social Phobia Inventory Questionnaire \(SPIN\)](#) is a 17 item self-completion questionnaire that assesses how [PATIENTS](#) were "bothered" by situations during the past week. The [PATIENT](#) chooses a number that best describes how they felt in the range of 0-4. The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

- 0 Not at all
- 1 A Little
- 2 Moderately
- 3 A Lot
- 4 Extremely

The recommended cut off score for the [Social Phobia Inventory Questionnaire](#) is 19. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

SOCIAL PHOBIA INVENTORY QUESTIONNAIRE (RETIRED)_ renamed from SOCIAL PHOBIA INVENTORY QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Social Phobia Inventory Questionnaire
- Changed Name from Data_Dictionary.NHS_Business_Definitions.S.Social_Phobia_Inventory_Questionnaire to Retired.Data_Dictionary.NHS_Business_Definitions.S.Social_Phobia_Inventory_Questionnaire

SOCIAL PHOBIA QUESTIONNAIRE (RETIRED)_ renamed from SOCIAL PHOBIA QUESTIONNAIRE

Change to Supporting Information: Changed Description, status to Retired, Name

The [Social Phobia Questionnaire](#) is a type of [ASSESSMENT_TOOL](#). This item has been retired from the NHS Data Model and Dictionary.

This is the Improving Access to Psychological Therapies [Social Phobia Questionnaire](#). It is calculated by the [PATIENT](#) choosing a number to indicate how much they would avoid a social situation because of a fear of being embarrassed or making a fool of themselves. The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

The numbers are in a range of 0 to 8 and are chosen as: Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

- 0 Would not avoid it
- 2 Slightly avoid it

- 4 Definitely avoid it
- 6 Markedly avoid it
- 8 Always Avoid it

A score of less than 4 indicates no specific problems and a score of greater than 4 suggests further exploration by the therapist to determine the extent to which this fear interferes with the **PATIENT's** daily activities.

SOCIAL PHOBIA QUESTIONNAIRE (RETIRED), renamed from **SOCIAL PHOBIA QUESTIONNAIRE**

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Social Phobia Questionnaire
- Changed Name from Data_Dictionary.NHS_Business_Definitions.S.Social_Phobia_Questionnaire to Retired.Data_Dictionary.NHS_Business_Definitions.S.Social_Phobia_Questionnaire

SPECIFIC PHOBIA QUESTIONNAIRE (RETIRED), renamed from **SPECIFIC PHOBIA QUESTIONNAIRE**

Change to Supporting Information: Changed Description, status to Retired, Name

The **Specific Phobia Questionnaire** is a type of **ASSESSMENT TOOL**. This item has been retired from the NHS Data Model and Dictionary.

This is the Improving Access to Psychological Therapies **Specific Phobia Questionnaire**. It is calculated by the **PATIENT** choosing a number to indicate how much they would avoid a situation because of a fear of particular objects or activities (such as animals, heights, seeing blood, being in confined spaces etc). The last live version of this item is available in the **??????** release of the NHS Data Model and Dictionary.

The numbers are in a range of 0 to 8 and are chosen as: Access to this version can be obtained by emailing **information.standards@nhs.net** with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

- 0 Would not avoid it
- 2 Slightly avoid it
- 4 Definitely avoid it
- 6 Markedly avoid it
- 8 Always Avoid it

A score of less than 4 indicates no specific problems and a score of greater than 4 suggests further exploration by the therapist to determine the extent to which this fear interferes with the **PATIENT's** daily activities.

SPECIFIC PHOBIA QUESTIONNAIRE (RETIRED), renamed from **SPECIFIC PHOBIA QUESTIONNAIRE**

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Specific Phobia Questionnaire
- Changed Name from Data_Dictionary.NHS_Business_Definitions.S.Specific_Phobia_Questionnaire to Retired.Data_Dictionary.NHS_Business_Definitions.S.Specific_Phobia_Questionnaire

STRATEGIC DATA COLLECTION SERVICE IN THE CLOUD

Change to Supporting Information: New Supporting Information

The **Strategic Data Collection Service in the Cloud (SDCS Cloud)** is a secure solution using the cloud technology.

The **Strategic Data Collection Service in the Cloud** is different from other existing **Strategic Data Collection Service** collection tools.

The **Strategic Data Collection Service in the Cloud** provides:

- improved user experience and faster data quality feedback
- a secure solution using the cloud technology which will integrate with improved **Data Processing Services**.

For further information on the **Strategic Data Collection Service in the Cloud**, see the **NHS Digital** website at: **Strategic Data Collection Service in the cloud (SDCS Cloud)**.

This supporting information is also known by these names:

UNIVERSITY

Change to Supporting Information: New Supporting Information

A University is an Educational Establishment.

A University is a high-level educational institution in which students study for degrees and academic research may be carried out.

This supporting information is also known by these names:

Context	Alias
plural	Universities

WORK AND SOCIAL ADJUSTMENT SCALE (RETIRED), renamed from WORK AND SOCIAL ADJUSTMENT SCALE

Change to Supporting Information: Changed Description, status to Retired, Name

The Work and Social Adjustment Scale is a type of ASSESSMENT TOOL. This item has been retired from the NHS Data Model and Dictionary.

The Work and Social Adjustment Scale (W&SAS) is a simple 5 item self report measure which provides an experiential impact of a disorder from the PATIENT's point of view. The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

It looks at how the disorder impairs the PATIENT's ability to function day to day with depression and / or anxiety as well as phobic disorders. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

The questions relate to the PATIENT's:

- ability to work
- home management
- social leisure activities
- private leisure activities
- close relationships

If a PATIENT has selected "Non Applicable" for the 'ability to work' question or if one value is missing, then these scores can be substituted with the average score of the non-missing items. Questionnaires with more than one missing value should be disregarded.

WORK AND SOCIAL ADJUSTMENT SCALE (RETIRED), renamed from WORK AND SOCIAL ADJUSTMENT SCALE

Change to Supporting Information: Changed Description, status to Retired, Name

- Changed Description
- Retired Work and Social Adjustment Scale
- Changed Name from Data_Dictionary.NHS_Business_Definitions.W.Work_and_Social_Adjustment_Scale to Retired.Data_Dictionary.NHS_Business_Definitions.W.Work_and_Social_Adjustment_Scale

PRESENT ON ADMISSION INDICATOR
PREVIOUS DIAGNOSED CONDITION INDICATOR
PRIMARY CANCER SITE FOR CANCER FASTER DIAGNOSIS PATHWAY
PRIMARY DIAGNOSIS
PROVISIONAL DIAGNOSIS
SEIZURE OCCURRED INDICATOR
SEPSIS SUSPECTED INDICATOR
TUMOUR OR LESION LATERALITY

PERSON STATED SEXUAL ORIENTATION

Change to Class: Changed Description

The stated physical and emotional attraction a **PERSON** feels towards one sex or another (or both).

~~**SEXUAL ORIENTATION** will be replaced with **PERSON STATED SEXUAL ORIENTATION**, which is the most recent approved national information standard to describe the required definition.~~

PLANNED ACTIVITY

Change to Class: Changed Attributes

Attributes of this Class are:

K PLANNED ACTIVITY IDENTIFIER
CONTRACT MONITORING PLANNED ACTIVITY
DECISION TO TREAT DATE
INTENDED PROCEDURE STATUS
PLANNED CANCER TREATMENT TYPE
PLANNED CARE CONTACT INDICATOR

PREVIOUS SYMPTOM STATUS (RETIRED), renamed from PREVIOUS SYMPTOM STATUS

Change to Class: Changed Description, status to Retired, Relationships, Name, Attributes

An indication of whether the **PATIENT** has a recurrence of a previously diagnosed condition or mental health problem. **This item has been retired from the NHS Data Model and Dictionary.**

The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

PREVIOUS SYMPTOM STATUS (RETIRED), renamed from PREVIOUS SYMPTOM STATUS

Change to Class: Changed Description, status to Retired, Relationships, Name, Attributes

Attributes of this Class are:

PREVIOUS SYMPTOM INDICATOR

This class has no attributes.

PREVIOUS SYMPTOM STATUS (RETIRED), renamed from PREVIOUS SYMPTOM STATUS

Change to Class: Changed Description, status to Retired, Relationships, Name, Attributes

Each PREVIOUS SYMPTOM STATUS

may be the category for one or more CATEGORY VALUED PERSON OBSERVATION

PREVIOUS SYMPTOM STATUS (RETIRED), renamed from PREVIOUS SYMPTOM STATUS

ACTIVITY LOCATION TYPE CODE

Change to Attribute: Changed Description

The type of [LOCATION](#) for an [ACTIVITY](#):

- where [PATIENTS](#) are seen
- where [SERVICES](#) are provided or
- from which requests for [SERVICES](#) are sent.

National Codes:

CODE	VALUE	NOTES
PATIENT Main Residence or Related Location		
A01	PATIENT 's Home	
A02	Carer 's Home	
A03	PATIENT 's Workplace	
A04	Other PATIENT Related Location	e.g. temporary address
Health Centre Premises		
B01	Primary Care Health Centre	Primary Care Health Centre with or without GP Practice (s) based in it, providing community-based healthcare services such as podiatry, community dentistry, ophthalmology, minor injuries nursing etc, Sexual and Reproductive Health Service , health promotion etc, and sometimes hosting outreach services from NHS Trusts and NHS Foundation Trusts
B02	Polyclinic	Provide similar services to Primary Care Health Centre but also additional services such as diagnostics, minor procedures, Out-Patient Appointments , urgent care etc. and also co-located services with Local Authority Social Care. May also provide extended/out of hours services.
GENERAL PRACTITIONER and OPHTHALMIC MEDICAL PRACTITIONER		
C01	General Medical Practitioner Practice	Stand-alone GP Practice premises, not part of a Primary Care Health Centre
C02	Dental Practice	Stand-alone GP Practice premises, not part of a Primary Care Health Centre
C03	OPHTHALMIC MEDICAL PRACTITIONER Premises	
Walk In Centres, Out of Hours Premises and Emergency Community Dental Services		
D01	Walk In Centre	May be NHS GENERAL PRACTITIONER Led, NURSE -led, or provided by private company. May be sited in different areas - health care premises, in retail premises etc
D02	Out of Hours Centre	May be NHS GENERAL PRACTITIONER -Led, NURSE -led, or provided by private company. May be sited in different areas - health care premises, in retail premises etc
D03	Emergency Community Dental Service	Run by Community Dental Services not GENERAL DENTAL PRACTITIONERS
Locations on Hospital Premises		
E01	Out-Patient Clinic	
E02	WARD	
E03	Day Hospital	
E04	Accident and Emergency or Minor Injuries Department	
E99	Other Departments	e.g. Pathology Laboratories , physiotherapy, diagnostic imaging, Occupational Therapy, Pharmacy Premises etc
Hospice Premises		
F01	Hospice	
Nursing and Residential Homes		
G01	Care Home Without Nursing	
G02	Care Home With Nursing	
G03	Children's Home	
G04	Integrated Care Home Without Nursing and Care Home With Nursing *	
Day Centre Premises		
H01	Day Centre	Facilities operated by the NHS, Social Services or private or voluntary bodies, providing day care and respite care for elderly or disabled people
Resource Centre Premises		
J01	Resource Centre	Premises where information and support for PATIENTS and their families/ Carers is provided.
Dedicated Facilities for Children and Families		
K01	Sure Start Children's Centre	Children's centres are service hubs where children under five years old and their families can receive seamless integrated services and information. Services vary according to centre but may include: <ul style="list-style-type: none"> • Integrated early education and childcare

		<ul style="list-style-type: none"> • Support for parents including advice on parenting, local childcare options and access to specialist services for families • Child and family health services • Helping parents into work
K02	Child Development Centre	
Educational, Childcare and Training Establishments		
L01	School	Including Extended Services, where provided on School premises (where provided off School premises, use other appropriate location)
L02	Further Education College	
L03	University	
L04	Nursery Premises	Pre-school Nurseries attached to Schools would be classed as Schools in their own right
L05	Other Childcare Premises	e.g. Childminder
L06	Training Establishments	
L99	Other Educational Premises	Such as Teenage Pregnancy Units, School Preparation Units (for toddlers), Pupil Referral Units (excluded older children and young people), units providing specialist education e.g. deaf children, autistic children etc
Justice and Home Office Premises		
M01	Prison	
M02	Probation Service Premises	
M03	Police Station / Police Custody Suite	
M04	Young Offender Institution	
M05	Immigration Removal Centre	
M06	Young Offender Institution (15-17) **	
M07	Young Offender Institution (18-21) **	
Public Locations		
N01	Street or other public open space	Public areas such as streets, parks, outdoor sports facilities etc
N02	Other publicly accessible area or building	Publicly accessible premises such as Youth Centres, supermarkets, shops and other retail locations such as shopping centres, community facilities such as libraries, church halls, community centres etc
N03	Voluntary or charitable agency premises	
N04	Dispensing Optician Premises	
N05	Dispensing Pharmacy Premises	Where it is not on a Hospital Site
Other Locations		
X01	Other locations not elsewhere classified

CONSULTATION MEDIUM USED

Change to Attribute: Changed Description

[CONSULTATION MEDIUM USED](#) identifies the communication mechanism used to relay information between the [CARE PROFESSIONAL](#) and the [PERSON](#) who is the subject of the consultation, during a [CARE ACTIVITY](#).

The consultation should directly support diagnosis and care planning and must replace a face to face [Out-Patient Attendance Consultant](#), [Clinic Attendance Nurse](#) or [Clinic Attendance Midwife](#), types of [CARE ACTIVITY](#).

A record of the consultation must be retained in the [PATIENT](#)'s records.

Telephone contacts solely for informing [PATIENTS](#) of results are excluded.

National Codes:

01	Face to face communication
02	Telephone
03	Telemedicine
04	Talk type for a PERSON unable to speak
05	Email **
06	Short Message Service (SMS) - Text Messaging ***
07	On-line Triage****
08	Online Instant Messaging *****
98	Other (not listed) *

Notes:

- National Code 03 has been updated in [Data Dictionary Change Notice 1734 "Consultation Medium Used Update"](#). The Data Set specifications that contain this item will be updated in the next version of the Information Standard where it is not already correct.
- * National Code 98 'Other' is **only** used for the [Community Services Data Set](#), [Maternity Services Data Set](#), [Mental Health Services Data Set](#) and [Sexual and Reproductive Health Activity Data Set](#). It is **NOT** valid in any other data set including Commissioning Data Set version 6-2.
- ** National Codes 05 'Email' is **NOT** valid for Commissioning Data Set version 6-2.
- *** National Code 06 'Short Message Service (SMS) - Text Messaging' is **NOT** valid for Commissioning Data Set version 6-2 and the [HIV and AIDS Reporting Data Set](#).
- **** National Code 07 'On-line Triage' is **only** used for the [GUMCAD Sexually Transmitted Infection Surveillance System Data Set](#). It is **NOT** valid in any other data set including Commissioning Data Set version 6-2.
- ***** National Code 08 '[Online Instant Messaging](#)' is **only** used for the [Improving Access to Psychological Therapies Data Set](#). It is **NOT** valid in any other data set including Commissioning Data Set version 6-2.

DIAGNOSIS SCHEME IN USE

Change to Attribute: Changed Description

The type of [CODED CLINICAL ENTRY](#) used for the [PATIENT DIAGNOSIS](#).

National Codes:

- 01 Accident & Emergency Diagnosis ***
- 02 [ICD-10](#)
- 03 Read Code 4Byte Version (retired 1 October 2009)
- 04 [Read Coded Clinical Terms Version 2](#)
- 04 [Read Coded Clinical Terms Version 2 ****](#)
- 05 [Read Coded Clinical Terms Version 3 \(CTV3\) *](#)
- 06 [SNOMED CT@ **](#)

Notes:

- * [Read Coded Clinical Terms Version 3 \(CTV3\) with qualifiers \(previously known as 3.1\)](#) is not supported in the [Commissioning Data Sets](#)
- * [Read Coded Clinical Terms Version 3 \(CTV3\) with qualifiers \(previously known as 3.1\)](#) is not supported in the [Commissioning Data Sets](#) and [Improving Access to Psychological Therapies Data Set](#)
- ** [SNOMED CT@](#) is not valid for [Commissioning Data Set version 6-2](#)
- *** [Accident & Emergency Diagnosis](#) is not valid for the [Community Services Data Set](#), [Maternity Services Data Set](#) and [Mental Health Services Data Set](#)
- *** [Accident & Emergency Diagnosis](#) is not valid for the [Community Services Data Set](#), [Improving Access to Psychological Therapies Data Set](#), [Maternity Services Data Set](#) and [Mental Health Services Data Set](#)
- **** National Code 04 is not valid for the [Improving Access to Psychological Therapies Data Set](#).

DISCHARGE FROM IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES SERVICE REASON

Change to Attribute: New Attribute

The reason that the [PATIENT](#) was discharged from an [Improving Access to Psychological Therapies Service](#).

National Codes:

- REFERRED BUT NOT SEEN**
- 50 Not assessed
- SEEN BUT NOT TAKEN ON FOR A COURSE OF TREATMENT**
- 10 Not suitable for [Improving Access to Psychological Therapies Service](#) - no action taken or directed back to referrer
- 11 Not suitable for the [Improving Access to Psychological Therapies Service](#) - signposted elsewhere with mutual agreement of [PATIENT](#)
- 12 Discharged by mutual agreement following advice and support
- 13 Referred to another therapy [SERVICE](#) by mutual agreement
- 14 Suitable for [Improving Access to Psychological Therapies Service](#), but [PATIENT](#) declined treatment that was offered
- 16 Incomplete Assessment ([PATIENT](#) dropped out)
- 17 Deceased (Seen but not taken on for a course of treatment)
- 95 Not Known (Seen but not taken on for a course of treatment)
- SEEN AND TAKEN ON FOR A COURSE OF TREATMENT**
- 46 Mutually agreed completion of treatment
- 47 Termination of treatment earlier than [Improving Access to Psychological Therapies Care Professional](#) planned
- 48 Termination of treatment earlier than [PATIENT](#) requested
- 49 Deceased (Seen and taken on for a course of treatment)
- 96 Not Known (Seen and taken on for a course of treatment)

LONG TERM PHYSICAL HEALTH CONDITION INDICATOR FOR IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES (RETIRED), renamed from LONG TERM PHYSICAL HEALTH CONDITION INDICATOR FOR IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES

Change to Attribute: Changed Description, status to Retired, Name

An indication of whether the [PATIENT](#) has a [Long Term Physical Health Condition](#), as stated by the [PATIENT](#). **This item has been retired from the NHS Data Model and Dictionary.**

National Codes: The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

- Y Yes
- N No
- U Unknown ([PERSON](#) asked and does not know or is not sure)
- Z Not Stated ([PERSON](#) asked but declined to provide a response)

Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

LONG TERM PHYSICAL HEALTH CONDITION INDICATOR FOR IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES (RETIRED), renamed from LONG TERM PHYSICAL HEALTH CONDITION INDICATOR FOR IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES

Change to Attribute: Changed Description, status to Retired, Name

- Changed Description
- Retired LONG TERM PHYSICAL HEALTH CONDITION INDICATOR FOR IMPROVING ACCESS TO PSYCHOLOGICAL THERAPIES
- Changed Name from `Data_Dictionary.Attributes.L.Lo.LONG_TERM_PHYSICAL_HEALTH_CONDITION_INDICATOR_FOR_IMPROVING_ACCESS_TO_PSYCHOLOGICAL_THERAPIES` to `Retired.Data_Dictionary.Attributes.L.LO.LONG_TERM_PHYSICAL_HEALTH_CONDITION_INDICATOR_FOR_IMPROVING_ACCESS_TO_PSYCHOLOGICAL_THERAPIES`

NHS NUMBER STATUS INDICATOR CODE

Change to Attribute: Changed Description

The trace status of the [NHS NUMBER](#).

National Codes:

- 01 Number present and verified
- 02 Number present but not traced
- 03 Trace required
- 04 Trace attempted - No match or multiple match found
- 05 Trace needs to be resolved - ([NHS NUMBER](#) or [PATIENT](#) detail conflict)
- 06 Trace in progress
- 07 Number not present and trace not required
- 08 Trace postponed (baby under six weeks old) *

Note: * National Code 08 'Trace postponed (baby under six weeks old)' is NOT valid for the [Maternity Services Data Set](#) and [Mental Health Services Data Set](#). Note: * National Code 08 'Trace postponed (baby under six weeks old)' is NOT valid for the [Improving Access to Psychological Therapies Data Set](#), [Maternity Services Data Set](#) and [Mental Health Services Data Set](#).

ONWARD REFERRAL REASON

Change to Attribute: Changed Description

The reason why the [PATIENT](#) was referred from one [SERVICE](#) to another [SERVICE](#), which may be in the same or a different [Organisation](#).

National Codes:

- 01 Transfer of Clinical Responsibility
- 02 For Opinion Only
- 03 For Diagnostic Test Only
- 04 New Referral (Non Transfer)
- 05 Stepped up from low intensity [Improving Access to Psychological Therapies Service](#) *

- 06 Stepped down from high intensity [Improving Access to Psychological Therapies Service](#) *
- 96 Other (not listed)

Note: * National Codes 05 and 06 have been introduced for the [Improving Access to Psychological Therapies Data Set](#) only to add further granularity to National Code 04. However, National Code 04 is still valid for the [Improving Access to Psychological Therapies Data Set](#) where extra detail cannot be collected.

PERSON STATED SEXUAL ORIENTATION CODE

Change to Attribute: Changed Description

The [PERSON STATED SEXUAL ORIENTATION](#) of a [PERSON](#).

[PERSON STATED SEXUAL ORIENTATION CODE](#) is aligned with descriptors for "Sexual orientation findings" in [SNOMED CT®](#) as follows:

[SNOMED CT Refset](#) Metadata:

- [Refset](#) FSN: Sexual orientation findings simple reference set (foundation metadata concept)
- [Refset](#) Id: 999003081000000103

For further details relating to the [SNOMED CT Refset](#) Metadata, see the [Data Dictionary for Care \(DD4C\)](#) website at: [Sexual orientation findings](#).

National Codes:

- 1 Heterosexual or Straight
- 2 Gay or Lesbian
- 3 Bisexual
- 4 Other sexual orientation not listed
- U [PERSON](#) asked and does not know or is not sure
- Z Not Stated ([PERSON](#) asked but declined to provide a response)

~~[SEXUAL ORIENTATION CODE](#) will be replaced with [PERSON STATED SEXUAL ORIENTATION CODE](#), which is the most recent approved national information standard to describe the required definition.~~

PLANNED CARE CONTACT INDICATOR

Change to Attribute: New Attribute

An indication as to whether the [CARE CONTACT](#) is a result of a planned [APPOINTMENT](#).

National Codes:

- Y Yes - the [CARE CONTACT](#) is a result of a planned [APPOINTMENT](#)
- N No - the [CARE CONTACT](#) is not a result of a planned [APPOINTMENT](#)
