

# Alcohol Specifications

## Aggregate data spec

Data Item	Description	Datatype
REPORTING_PERIOD	The Month that the data is being collected for	String
ODS_CODE	ODS code for the provider submitting the data	String
ODS_NAME	ODS name of the provider submitting the data	String
SITE_CODE	The ODS code of the hospital site where the service is being delivered	String
PATIENTSASSESSED_EC_YESPOSITIVE	Patients Assessed for Alcohol when attending Emergency Care	Int
PATIENTSASSESSED_EC_YESPOSITIVE	Patients Assessed for Alcohol when attending Emergency Care	Int
PATIENTSASSESSED_EC_YESNEGATIVE	Patients Assessed for Alcohol when attending Emergency Care	Int
PATIENTSASSESSED_EC_NOTASSESSED	Patients Assessed for Alcohol when attending Emergency Care	Int
PATIENTSASSESSED_IP_YESPOSITIVE	Patients Assessed for Alcohol when admitted as an Inpatient. I.e. from the Admitted Patients only those who are inpatients with overnight stays (equivalent to Intended Management = 1): <a href="https://www.datadictionary.nhs.uk/attributes/intended_management.html">https://www.datadictionary.nhs.uk/attributes/intended_management.html</a>	Int
PATIENTSASSESSED_IP_YESPOSITIVE	Patients Assessed for Alcohol when admitted as an Inpatient. I.e. from the Admitted Patients only those who are inpatients with overnight stays (equivalent to Intended Management = 1): <a href="https://www.datadictionary.nhs.uk/attributes/intended_management.html">https://www.datadictionary.nhs.uk/attributes/intended_management.html</a>	Int
PATIENTSASSESSED_IP_YESNEGATIVE	Patients Assessed for Alcohol when admitted as an Inpatient. I.e. from the Admitted Patients only those who are inpatients with overnight stays (equivalent to Intended Management = 1): <a href="https://www.datadictionary.nhs.uk/attributes/intended_management.html">https://www.datadictionary.nhs.uk/attributes/intended_management.html</a>	Int
PATIENTSASSESSED_IP_NOTASSESSED	Patients Assessed for Alcohol when admitted as an Inpatient. I.e. from the Admitted Patients only those who are inpatients with overnight stays (equivalent to Intended Management = 1): <a href="https://www.datadictionary.nhs.uk/attributes/intended_management.html">https://www.datadictionary.nhs.uk/attributes/intended_management.html</a>	Int
PATIENTSASSESSED_OP_YESPOSITIVE	Patients Assessed for Alcohol when attending an Outpatient Appointment Clinic as a first appointment. Only aggregate information from first appointments is required. Patient level records are required for any patients referred from an outpatient setting	Int
PATIENTSASSESSED_OP_YESPOSITIVE	Patients Assessed for Alcohol when attending an Outpatient Appointment Clinic as a first appointment. Only aggregate information from first appointments is required. Patient level records are required for any patients referred from an outpatient setting	Int
PATIENTSASSESSED_OP_YESNEGATIVE	Patients Assessed for Alcohol when attending an Outpatient Appointment Clinic as a first appointment. Only aggregate information from first appointments is required. Patient level records are required for any patients referred from an outpatient setting	Int
PATIENTSASSESSED_OP_NOTASSESSED	Patients Assessed for Alcohol when attending an Outpatient Appointment Clinic as a first appointment. Only aggregate information from first appointments is required. Patient level records are required for any patients referred from an outpatient setting	Int

## Record level data spec

Data Item	Description	Datatype
REPORTING_PERIOD	The Month that the data is being collected for	String
ODS_CODE	ODS code for the provider submitting the data	String
ODS_NAME	ODS name of the provider submitting the data	String

SITE_CODE	The ODS code of the hospital site where the service is being delivered	String
NHS_NUMBER	A number used to identify a PATIENT uniquely within the NHS in England and Wales	String
BIRTHDATE	The date on which a person was born or is officially deemed to have been born	Date
FIRSTNAME	The first given name of the person	String
LASTNAME	The surname or family name of the person	String
GENDER	The gender of a person as reported by them	String
ETHNICITY	The ethnic identity of a person as reported by them	String
POSTCODE	The postcode of the address nominated by the patient with address association type: 'Main Permanent Residence' or 'Other Permanent Residence'	String
ALCOHOL_RISKASSESSMENT	Whether the patient was assessed for alcohol risk using a validated tool: such as AUDIT/AUDIT-C, FAST	String
ACTIVITY_DATETIME	The date and time of the activity for the current episode of care (i.e. the one which lead to the patient's inclusion in this submission)	DateTime
EC_ATTENDANCE_ID	The unique identifier for the Emergency Care Patient Attendance at which an alcohol dependence assessment took place	String
HOSPITAL_SPELL_ID	The unique identifier for the Hospital Provider Spell within which an alcohol dependence assessment took place	String
OP_ATTENDANCE_ID	The unique identifier for the outpatient attendance at which an alcohol dependence assessment took place	String
ACT_REFERRAL_DATE	The date on which the patient was referred to the ACT	Date
ACT_REFERRAL_SOURCE	Source of the referral to the ACT	String
FIRSTCONTACT_DATE	The date on which the first contact was made with the ACT	Date
NEWTOSERVICE	Whether the patient is new to the ACT team	String
INTERACTION_COUNT	The number of interactions (or times seen) that the patient has had with the ACT within the current episode with the ACT	Int
CAS_REFERRAL_INDICATOR	Whether the patient was formally referred to continue treatment in community alcohol services	String
CAS_REFERRAL_STATUS	For patients formally referred to continue treatment in community alcohol services, whether this was their first referral and if not if they are already on the caseload	String
IP_EMERGENCYADMISSIONPREVENTED	Whether the ACT intervention has been deemed to have prevented an inpatient emergency admission for the patient	String
MAW_INDICATOR	Whether the patient required Medically Assisted Withdrawal (MAW)	String
MAW_SETTING_AND_STATUS	Whether the patient completed Medically Assisted Withdrawal (MAW), in which setting and whether it was under the supervision of the ACT	String
PERSON_ID	This Person_ID will either be populated with: <ul style="list-style-type: none"> <li>• NHS Number - Where the input data can be matched to a single record selected from PDS that holds a valid NHS number</li> <li>ELSE</li> <li>• UPRI 1 (Unmatched Person Record Identifier 1) - where the input data cannot be matched to a single person record holding a valid NHS number within PDS but the data for the record is sufficient to identify a distinct person. In this scenario, the Spine MPS service will generate an ID that will be consistently attributed to that distinct person record, thus making it suitable for linkage.</li> <li>UPRI 1 will be prefixed with an A or B (or, in the future, could theoretically be any alpha character excluding 'U')</li> <li>ELSE</li> <li>• UPRI 2 (Unmatched Person record Identifier 2) - where the input data cannot be matched to a single person record holding a valid NHS number within PDS and the data for the record is insufficient to identify a distinct person (e.g. John Smith and Postcode). In this scenario, DPS will generate a 'one-off' ID (UPRI 2) that will not be attributed to any distinct person record and thus cannot be used for linkage.</li> <li>UPRI 2 will always be prefixed with a U</li> </ul>	String
GP_PRACTICE_CODE_TRACED	From MPS, the GP Practice that the patient is registered at. ODS code format.	String

POSTCODE_TRA CED	From MPS, the postcode of the address nominated by the patient with address association type: 'Main Permanent Residence' or 'Other Permanent Residence'	String
CCG_OF_RESIDE NCE	Clinical Commissioning Group covering the area in which the patient's postcode falls. ODS code format.	String
ICS_OF_RESIDE NCE	Integrated Care System covering the area in which the patient's postcode falls. ODS code format. This will be null until at least April 2022 when ICS organisations are rolled out.	String
LA_OF_RESIDEN CE	Local Authority covering the area in which the patient's postcode falls. ODS code format.	String
LSOA_OF_RESID ENCE	Lower Super Output Area (lowest level without being disclosive) covering the area in which the patient's postcode falls. ODS code format.	String
ICS_OF_REGIST RATION	Integrated Care System covering the area in which the patient's GP Practice falls. ODS code format. This will be null until at least April 2022 when ICS organisations are rolled out.	String
CCG_OF_REGIST RATION	Clinical Commissioning Group covering the area in which the patient's GP Practice falls. ODS code format.	String
LA_OF_REGISTR ATION	Local Authority covering the area in which the patient's GP Practice falls. ODS code format.	String
LSOA_OF_REGIS TRATION	Lower Super Output Area (lowest level without being disclosive) covering the area in which the patient's GP Practice falls.. ODS code format.	String
