Innopsis An introduction

HSCN Operating Model

HSCN Strategic Principles / Objectives

- Local Ownership
- Service Continuity
- Optimise Capability / Reuse
- Time to Market
- Balance of Choice and Consistency
- Reliability & Performance

HSCN Obligations Framework

The Obligations Framework provides a well developed and articulated operating model for suppliers and users of HSCN and enables;

- Disaggregation
- Network Performance Standards
- Choice of connectivity solutions
- An end to end service model guaranteeing performance
- Competitive market
- Adherence to NHS Digital IA requirements
- A transition model
- Deed of Undertaking

HSCN was developed in cooperation between NHS Digital and Supplier Community and creates;

- The logical default network for users
- Supports new UK based supplier entrants
- Offers a safe and secure transition capability
- Will meet all user type requirements
- Creates an agreed and understood service model
- Will use established Frameworks & Aggregated Procurements
- The user is the client HSCN is the operating model
